

Slobodan FRANOVIC

My idea is that I speak about the human rights situation, building of democratic institutions etc. in Montenegro and the State Union of Serbia and Montenegro and within the framework of the situation in the region of West Balkans. I would like to pay special attention to facing the past issue and also to unsolved major issues in the region such as Kosovo and future relationship between Montenegro and Serbia etc. I will speak in Montenegrin language which is very similar to Croatian so it will not be a problem for translators.
